WETASKIWIN

Lewisville Locals.

The basket special again last Friday evening in honor of J. W. Fitch, who has served his connection with the Methodist congregation here, was a grand success in every way. The social was held at "Willowdale," the beautiful home of Mr. and Mrs. E. S. Jones, to whom much credit is due for the pleasant evening's entertainment. The first part of the evening was devoted to croquet, and other outside amusements, while the latter part was very pleasantly spent, a choice musical program being rendered in the commodious house. R. L. Rushton, of Wetaskiwin, auctioneered the baskets off at a good figure, \$31.75 being realized. This sum was then handed over to Mr. Fitch as a slight token of his faithful services in this district. Mr. Fitch made a feeling reply, regretting very much that he was about to sever himself from the Lewisville appointment. The gathering broke up about midnight, and those who were fortunate enough to be there, will not soon forget the pleasant evening's entertainment.

Dried Meat Lake.

Born.—Sunday, June 23rd, to Mr. and Mrs. Hearnst, blacksmith, a son. Mother and child doing well. Born.—Tuesday, June 25th, to Mr. and Mrs. Charles Wilda, a bouncing black-haired daughter, weight 10 lbs. Mr. and Mrs. Rymer have been looking over this part of the country with a view of homesteading for themselves and sons. Mr. White and son are plotting on their 750 acre ranch next to the lake; Mr. White rented a farm 14 miles west of Wetaskiwin but is better pleased with this district. We understand that as good a road as there is to town is straight west on a line with the Carpenter bridge. Does not some of above items make you desolate; bachelors turn green with envy. Wm. Campbell has decided to remain at home for the summer. Mrs. Laurand Salaries has been quite ill for a few weeks past but is improving.

Battle River.

Although Ed. T. Jacobs' auction sale last Saturday was not very largely attended, owing to the busy season, everything offered brought good prices. R. L. Rushton, of Wetaskiwin, wielded the hammer. There were 75 head of stock, several pigs and a number of horses sold, besides implements. Jacobs has disposed of his farm to Lew Hanna, and will move to town shortly to look after his interest in the live business there. Mr. and Mrs. Jacobs are very popular here, and will be greatly missed. They have many friends in this locality wish them unbounded success and prosperity.

Cherry Grove.

(Continued from last week.) Messrs. Holbrook and Brown spent Sunday in Cherry Grove. Miss MacMurdo spent Saturday and Sunday the guest of Mr. and Mrs. Surling. W. V. Wilson has returned to his work after taking a couple of weeks vacation. Soo Herndon, of town, has spent a few days in this vicinity. Mrs. Gallier, who has been sick for the past few days, is slowly recovering. Adam Switzer, who has been under the care of Dr. Walker for the past few weeks, is improving as well as can be expected. The picnic held in the grove of Wm. Abbott last Wednesday proved a great success. Everybody appeared to enjoy themselves immensely in the afternoon, and as evening dawned upon the merry gathering, the sweet strains of the violin were heard and the young people tipped the light fantastic till the wee small hours of the morning. A young man in the southern part of Cherry Grove district has a severe attack of "lint on the lungs" caused from chewing the rag but we hope that with proper treatment he will soon be restored to his usual health. A special meeting of the ratepayers of this district was held in the school house on Saturday June 22nd, for the purpose of electing a trustee to the position lately occupied by the late A. E. Davis. Mr. Myers was the choice of the meeting. D. McRea has improved the appearance of his beautiful residence by adding a commodious summer kitchen; also his out buildings by getting a new roof on his granary.

Liquor Law Amendment.

Just before the Assembly adjourned, an important amendment to the liquor act was passed, which concerns the people of the Territories. The amendment was captioned by A. S. Rosenroll, the enthusiastic member for this district, and is quite a feather in his cap. It was carried by a vote of 16 to 9. The following is a copy of the motion and the amendment.

De Elliot moved, seconded by Mr. Smith:

"Whereas notwithstanding the restrictive legislation now in operation in connection with the liquor act in the Territories to an alarming extent and is persistent hindrance and obstacle to the normal and equitable well-being of our people;

And whereas the most effective method of dealing with this evil is by the amendment and enforcement of total prohibition of the traffic;

And whereas as evident by the recent Dominion plebiscite public sentiment in the Territories is in favor of such legislation;

And whereas it is very desirable that the election should be given an opportunity of definitely expressing themselves on a matter so important;

And whereas a petition has been presented to this House praying for such an opportunity;

Therefore it is resolved that at the next Territorial election the question whether or not a total prohibition legislation should be enacted, be submitted to the electors.

It is further resolved that should the result of such public vote be in favor of such legislation, then that the same should be enacted within two years from the date of said election."

The mover said this proposition was a fair, business like one made by a large and influential body who had presented a largely signed petition. They asked that a plebiscite be taken at a time when it would be very little expense; and that in the event of a majority of three to two steps should be taken to carry out the wishes of a vast majority of the people.

Mr. Smith said the temperance people of the North-West Territories must be somewhat disappointed in the size of the petition that he seconded the motion. The people had a chance to vote on the plebiscite submitted by the Dominion, but there were differences of opinion as to what action should be taken under that plebiscite, as it would be all at this time to give the people a chance as the resolution indicated.

Mr. Rosenroll said an amendment, seconded by Mr. Gilby, that all the words after the word "whereas" in the resolution be deleted. "In the opinion of the amendment, the word 'whereas' is not needed, as it is a system of total prohibition of the government make inquiries into the working of the law, and the other countries have adopted, with the object of the introduction of prohibition into the Territories."

Mr. Rosenroll said that in his opinion the motion of the member for Waseley went a little too far. As long as a demand for liquor existed, people would get it. Honestly if they can, but they will get it. He did not believe that this government or any other government of the Territories could enforce prohibition unless a very heavy levy was levied. It cost the Dominion government \$400,000 a year for the Northwest Mounted Police, and no doubt a similar force would be required to enforce prohibition. He did not think it would be possible to stop smuggling liquor, surrounded as we are by provinces and states where prohibition is not in force.

At present we get a revenue of about \$30,000 from liquor licenses, and the municipalities also get a large revenue; but to enforce prohibition would practically take all the public works vote of this year. The country's greater needs than prohibition, namely roads and bridges to give access to the towns and villages. The system of government control had been tried in several countries, and had found favor where it had been tried.

Mr. Gilis did not think it possible even if the people should give the majority ordered in the resolution, to carry out prohibition. He had resided in Maine for some years and his experience there had been that one could get a bottle of whiskey anywhere almost any time he wanted it.

Dr. Patrick could not see that prohibition was the most effective method as stated in the motion; he did not believe it was possible to enforce prohibition.

Mr. Lake said that if the resolution had been simply that a plebiscite should be held he would have voted in favor of it, but as there were other matters introduced with which he was not able to agree altogether, he supported the amendment as in accordance with the views he had held for a long time.

Mr. Haultain did not believe the country had arrived at a stage that would allow prohibition to be effectively enforced even with a body of a thousand policemen to look after that alone.

Mr. Bennett was unable to support the amendment, though there was a great deal in the motion with

which he did not agree. He did not believe that a petition signed by nine hundred persons represented the sentiment of the people of the Territories, but he believed the House should endeavor in some way to meet the demand.

Religious Intolerance.

Battle River, June 21, 1901.
To the Editor of The Times
Mr. Editor—
When Bloody Mary, the Roman Catholic, reigned upon the throne of England, all England was steeped in blood. Haughty Elizabeth, the Protestant, succeeded her and still in the name of religion, the fair soil of that island continent was again flooded with man's life blood. We look back to-day upon those scenes and throw up our hands in holy horror at the religious intolerance caused by intense ignorance regarding the demands of the human heart and will. Some few centuries have passed since then and we have, or seem to have, advanced up the grade of broader conceptions and wider sympathies, and to-day we strongly urge the principle of every man believing whatever creed or doctrine that best suits his mental calibre and heart longings.

I understand that our school system is based upon the same broad principle of independent thought and belief. Since I have come to Canada I believe it is Canada's boast, and rightly may she be proud that any parent having any belief may send his son to the Canadian public school, feeling confident that his religious bent will be respected. I may not believe as some people, nor as the majority do, yet I am willing to conform to the rules of a public school, and support it as the annual assessments may be laid upon my farm, but it is against my creed to support a school which, and why should I be forced to do so? When the trustees pass a resolution that none other than a teacher of a certain church be engaged, then I feel I am supporting a parish school, which I cannot conscientiously do. Now Mr. Editor, I have said this much just to ask one question. Is this the law or even the custom in the Territories?

Yours, RATEPAYER.

School Report.

The following is the report of the primary department of the Wetaskiwin Public School for the month of June.—Senior Part Second.—1. Mable Rann, 2. Emily Rehaume, 3. Manie Rehaume, 4. John Roraff, 5. Junior Part Second.—1. Edith Lake, 2. Philip Miquelon, 3. Flora Facey, 4. Vivian Lake, Senior First.—1. Mary Fountain, 2. Josephine Fountain, 3. Ethel Behrens, 4. Henry Rehaume.

Additional Town Topics

Don't forget that there will be a big sale on Tuesday, July 9th, at Bauer's auction yards.

R. E. Holbrook is at Lacombe this week presiding over the examinations, being held there.

The Pringle Concert Co. have engaged Herie's opera hall for the evening of July 27th. Particulars later.

W. G. Murphy, who had the misfortune to break a small bone in his right arm near the elbow last week, is doing nicely and will soon be moving around again.

J. W. Herie and bride arrived home from their honeymoon trip to Banff on Wednesday. They were detained at Calgary several days in consequence of the strike.

The fence around the Agricultural Society's grounds is almost completed, and a large gang of men are rushing the completion of the crystal palace and the grand stand. Everything will be in readiness for next Monday.

At the time of writing, the strike of C. P. R. sectionmen remains unsettled. The recent heavy rains have put the track on the C. & E. line in a wretched condition, and it is rumored there have been fifteen washouts between Calgary and Edmonton. A couple of trains managed to get through on Wednesday evening, but were 27 hours delayed from Calgary to Wetaskiwin. All the sectionmen on the C. & E. are out, with the exception of one man, and the men are obstinately holding their ground.

THE Drug Store.

EFFERVESCENT APERIENT

Laxative, Refrigerant, Antacid, a valuable drink in hot weather.

ONLY 50 CENTS PER BOTTLE.

THE NATIONAL GALL CURE

For Horses and Cattle.

This valuable remedy will be found efficacious in all cases of Galls, Sore Necks, Becks and Shoulders. In case of Sore Tests on cows, this remedy will be found invaluable, giving immediate relief and cure.

R. C. WARD,

Druggist and Stationer, Wetaskiwin, Alta.

Subscribe for The Times and get the local news and reliable market reports. Only \$1 a year in advance

A 12th of July Orange celebration is being held at Calgary this year. A good program of speeches, athletic sports and music is promised.

Mr. Turner, who has been clerking in J. W. Herie & Co's general store, left on Thursday's train for his home in Vermont, being called there owing to illness in his home.

A Calgary correspondent says that on Monday a terrible flood bore down upon Okotoks and carried away whole slices of land at a time. The mill house there hangs four feet over a stream and the mill is reported damaged.

Large gangs of workmen are engaged on the Driard Hotel addition, Hull Bros. & Co's building and Compton & Montgomery's new store. All these are large structures and greatly add to the compact appearance of Peace street.

Prof. James Fletcher, Dominion Entomologist and Botanist, and Mr. Angus MacKay, Superintendent, of the Indian Head experimental farm, will deliver addresses on agricultural subjects at Wetaskiwin on Tuesday, July 23rd. They will also address meetings at Leduc and Ponoka.

It Dazzles The World.

No discovery in medicine has ever created quite a quarter of the excitement that has been caused by Dr. King's new discovery for consumption. It's severest tests have been on hopeless victims of consumption, pneumonia, hemorrhage, pleurisy and bronchitis, thousands of whom it has restored to perfect health. For coughs, colds, asthma, croup, lay fever, hoarseness and whooping cough it is the quickest, surest cure in the world. It is sold by R. C. Ward who guarantees satisfaction or refund money. Large bottles 50c and \$1.00. Trial bottles free.

FRIDAY, JULY 5, 1901.

Town Topics.

Miss Vaughan is at Lacombe writing on the exams.

A new street is being made leading to the agricultural grounds.

Two drunk and disorderly cases were brought before the J. P. this week.

S. B. Talbot sold 20 head of young stock to Wm. Eggleston on Wednesday.

Dominion Day was very quietly observed in town. All the places of business were closed.

Messrs. Byers and Bash are having a new fence placed around their respective residences.

Rev. Jos. Smith, and family, of Toronto, arrive this week, and will reside at Duhamel. He succeeds J. W. Frid.

H. D. Harris sold five more of his lots this week to D. McEachern, who intends erecting a handsome residence this fall.

The Edmonton brass band have been engaged to play here next Monday and Tuesday. Don't fail to come to town and hear them.

Ed. T. Jacobs' house, just west of the Presbyterian church, will soon be ready to be occupied. Mr. Jacobs will move his family to town as soon as it is ready.

A good shipment of butter and eggs was made on Thursday's train by three merchants of town. All together they shipped about five tons of butter and 55 cases of eggs.

A number of citizens drove to Edmonton this week to attend the big fair. The number would have been much larger, however, if the train had been running the first of the week.

Messrs. Frank and Hal Benoit have resumed work after the quarantine. Frank is now isolated as he is supposed to be suffering from the alleged small-pox, although he is not very sick.

Two Indians from the Reserve were committed for trial this week on a charge of killing cattle belonging to another Indian. This is a serious charge, and as the case is a clear one, they will likely be sent down for a term.

The annual shoot of the Wetaskiwin Gun Club took place on Dominion Day. This was the only attraction in town, and a large number of spectators were present. E. W. Whittaker won the silver cup, valued at \$15, and Messrs. Whittaker, Dickson, N. W. Gould and Weller won the different sweepstakes.

Now that a large crowd of visitors is expected here next Monday and Tuesday, something should be done towards cleaning up the streets and giving our town a tidy appearance. At the present time, some of our streets and lanes are a disgrace, and strangers seeing this will form a very erroneous idea of the town. Other towns on the line pride themselves on their cleanliness, and we should not take a second place. The health of the community is also endangered, and money is being lost after this at once. Clean up!

It is reported that the Northwest government has at last seen the necessity of erecting a bridge over the Battle River at Gould's crossing, between townships 45 and 46. This is badly needed, as owing to the continual floods, the ferries have become dangerous. Mr. Rosenroll informs us that he is now in correspondence with the Department of Public Works and he is confident that an iron bridge will be constructed this summer. Instructions will also be issued shortly for the erection of a bridge over the Pipestone creek at Kelley's crossing.
